

AL SHIMA WOMEN'S DEVELOPMENT ASSOCIATION

SUPPORT TO KINDERGARTEN PROJECT, PORT SUDAN

Port Sudan, 15 September 2018

1. Acknowledgments

The Women's Association Alshima from Dar Alnaim of Port Sudan sincerely thanks the ZONTA Club Milano Sant'Ambrogio for the friendly support provided from Italy to Sudanese women and children. Thanks to this concrete support, Alshima had the chance to improve the accessibility and increase the services provided by the association to the women at community level, including community care services for children that cannot afford kindergarten fees.

2. Realised activities

With the funds provided by ZONTA Club Milano Sant'Ambrogio, the women of the association Alshima implemented the following activities during the month of August 2018:

1. Cooperate with the Electricity Public Entity to connect the women association premises to the public electricity system. Alshima was connected to electricity on 18th August 2018, allowing women to increase their small income generating activities at community level, such as phone charging and meals' conservation through the utilisation of a fridge.
2. Purchase of two fans. The availability of two fans improved the living conditions of the children in the kindergarten, when during summer time temperatures can reach 50 degrees.
3. Purchase books, toys and uniforms for 50 children to improve the accessibility to educational materials.
4. Prepare meals for children for the duration of 3 months for 90 children below five years old. The availability of meals during the kindergarten hours will ensure that kids can have access at least to a good meal per day and increase their concentration during schooling hours.
